Soft Form® Hernia Belt

MODEL: 67-350

The Soft Form® Hernia Belt provides gentle relief from reducible inguinal hernias. Designed using the latest materials for the maximum level of support and comfort. Manufactured using lightweight materials with no uncomfortable or hard to use buckles or snaps. Provides constant, comfortable and adjustable pressure to the hernia. Two uniquely shaped foam compression pads provide gradual pressure and support to the weakened muscles with focused compression on the hernia. Either pad can be removed to treat a single hernia. Color: Beige.

- Easy hook and loop closure
- Adjustable waist band
- Adjustable perineal straps
- Flexible foam cushions
- Neutral beige color can be worn inconspicuously under most clothing

Soft Form® Hernia Brief

MODEL: 67-500

The Soft Form® Hernia Brief offers gentle relief from reducible inguinal hernias by providing adjustable and comfortable compression. Low in profile and white in color, it can be worn inconspicuously under most clothing. May be worn in lieu of a regular undergarment and, with hernia support built into the brief, eliminates the need to wear both a regular undergarment and a bulky truss.

Made of soft, lightweight materials and features hook and loop adjustable compression straps for ultimate comfort. A plush waistband allows for comfortable and extended wear. The removable foam cushions are designed to provide gradual compression around the affected area with focused compression on the hernia, reducing and/or pushing the inguinal hernia back. Compression straps are easily adjusted. Either pad can be removed to treat a single hernia.

- Built-in hernia support
- Removable foam cushions
- Easily adjustable for the ideal amount of compression
- Treats right, left or double hernias
- Advanced plush, micro-soft materials for extra comfort
- Anatomically designed - creates compression only where needed
- Easy and comfortable to wear
