

Universal Cervical Collar

MODELS: 10-121 THRU 10-233

Unique collar design with an extended hook and loop closure adjusts to ensure a proper fit for neck sizes 13" to 19". Polyurethane foam is covered with a soft beige stockinette. Available in three widths, two densities and two contours. Traditional low contour design maintains the head in a neutral position. High contour design has a straight configuration which is ideal for slight hyperextension.

Soft Form® Posture Control Brace

MODEL: 16-900

The Soft Form® Posture Control Brace is designed to correct poor posture by gently holding the shoulders back in proper position. Elastic side panels provide support compression to stabilize the abdominal and lumbar regions for improved posture and alignment. The soft, laminate body material is comfortable against the skin and ventilated elastic side panels are breathable to keep the skin cool. May be worn underneath clothing, while sitting, or during activity to correct and control poor positioning or posture. Ideal for limiting forward and downward movement of the shoulders (slouching). Helps improve poor posture and relieves pain caused by arthritis. Minimizes a "stooped" posture often associated with osteoporosis. Encourages proper posture while seated for prolonged periods. Color: Beige.

- Encourages proper posture
- Gently keeps shoulders back for posture control
- Soft, unique laminate body material
- Support compression to stabilize the abdominal and lumbar regions
- Two flexible, plastic stays for additional support
- Cool, comfortable ventilated elastic side panels
- Criss-cross, plush elastic shoulder straps for increased adjustability
- May be worn under clothing, while sitting or during activity

Patent Pending

For Men and Women

Measure around the fullest part of the abdomen.
