

## Safe-T-Sport® Neoprene Hinged Knee Stabilizing Brace

MODEL: 37-104

Neoprene knee sleeve with durable steel hinged reinforcements that allow for flexion and limit medial/lateral movement with a 180° hyperextension stop. Hinges in neoprene covered pockets for added comfort. Brace includes a superior horseshoe for added patella stability. Two loop lock straps can be adjusted to give the most intimate and comfortable fit while helping prevent brace migration. Sports neoprene with nylon terry liner has a soft, seamless feel against the skin. Open patella and easy slip on style. Colors: Navy or Black.

## Safe-T-Sport® Neoprene Knee Stabilizing Brace with Composite Hinges

MODEL: 37-107

Neoprene knee sleeve with lightweight composite hinges. Lightweight, thin neoprene with nylon terry liner for a soft, seamless feel against the skin. Ideal for use on swollen or tender knees resulting from sprains, strains, injuries, arthritis or post-operative rehabilitation. Color: Beige.

- Lightweight neoprene for consistent compression and therapeutic warmth
- Inferior horseshoe support around knee joint for patellar tracking problems
- Lightweight composite hinges allow for flexion while limiting medial/lateral movement and preventing hyperextension
- Pull-on style with two loop lock adjustable straps

Measure 4" above center of the kneecap.

## Safe-T-Sport® Wrap-Around Hinged Knee Brace

MODEL: 37-350

Sports neoprene is an ideal material because it provides consistent compression and four-way stretch for proper fit and comfort. Neoprene retains the body's natural heat to provide therapeutic and soothing warmth to joints and muscles. Indicated for slight to moderate ligament sprains and tears, medial/lateral meniscal tears, arthritis and knee joint instability. Durable steel hinges give medial and lateral stabilization to the knee and allow for full knee flexion with hyperextension stops. Color: Black.

- **Sports Neoprene** with four-way stretch compression
- **Front Wrap Closures** for quick, easy application - especially easy to apply over tender or swollen knees
- **Medial/Lateral Metal Hinges** allow for full flexion and prevent hyperextension
- **Open Behind the Knee** to help prevent bunching and improve comfort
- **Two Adjustable Support Straps** help maintain the brace in place

*Measure 4" above center of the kneecap.*

## Neoprene Knee Guard for Sports

MODEL: 37-971

This rugged Neoprene Knee Guard provides protection against lateral side impacts and hyperextension of the knee. Ideal for use as a protective brace during athletic activity to help prevent injury. Also indicated for use on sprains, strains, medial or lateral instability. Color: Black.

- Protects the knee during athletic activities such as football, hockey or skiing
- Helps reduce medial or lateral instability
- Light, strong, lateral hinge protects against side impact
- One wide lateral hinge makes this guard easy and light to wear
- Hinge locks to prevent hyperextension of the knee
- Easy to apply wrap design with non-slip liner
- Fits right or left knee

*Size according to height.*
