GelBand® Patella Strap

MODEL: 37-500

This patella strap provides the ideal in therapeutic support - conforming compression without restricting circulation. Use this support to treat symptomatic pain from Chondromalacia Patella Syndrome, Patellar Tendinitis, and Osgood-Schlatter's disease. Strap applies uniform compression which helps guide the patella and improve tracking. Includes a uniquely designed viscoelastic insert that provides consistent and focused compression. Angulated buckles allow strap to reside properly for minimal migration in either inferior or superior applications. Colors: Black or Beige.

U-Point™ Gel Insert
Focuses pressure on the tendon below the kneecap

The GelBand® Patella Strap is packaged with an informative KNEE GUIDE that explains the common conditions affecting the patella, their causes and symptoms, and the suggested treatments.

Safe-T-Sport® Sports Neoprene Patella Support

MODEL: 37-300

Sports neoprene is an ideal material because it provides consistent compression and four-way stretch for proper fit and comfort. Neoprene retains the body's natural heat to provide therapeutic and soothing warmth to joints and muscles. The inferior patella pad focuses compression on the patellar tendon to relieve discomfort, increase stabilization and improve patella tracking. Indicated for Chondromalacia Patella, fat pad impingement, Osgood-Schlatter Disease, patella instability, patella tendonitis, patellar subluxation, degeneration, and arthritis. Color: Black.

- **Sports Neoprene** provides therapeutic warmth and support around the joint to speed healing.
- **Inferior Patella Pad** applies uniform compression to reduce the load on the patellar tendon to increase stability, improve patella tracking, and help alleviate pain and pressure.
- **Adjustable Hook and Loop Straps** for an improved fit and enhanced compression control.
- **Simple Wrap-Around Design** for quick, easy application.

Measure circumference around the center of the patella (kneecap).

ORDER #	SIZE	FITS KNEES
37-300400	Small	13 - 14"
37-300500	Medium	14 ½ - 15 ½"
37-300600	Large	16 - 17"
37-300700	X-Large	17 ½ - 18 ½"

Note - If measurement falls between two sizes, select the next larger size.

Safe-T-Sport® Neoprene Patella Stabilizer with Removable Horseshoe

MODEL: 37-103

Neoprene sleeve with four flexible spiral stays for added medial / lateral stability. Removable horseshoe can be placed superior, inferior, lateral or medial depending on where support is needed. Two loop lock straps can be adjusted to give an intimate and comfortable fit. Sports neoprene with open patella and easy slip on style provides compression with therapeutic warmth. Colors: Navy and Black.

Also Available in Black

Safe-T-Sport® Lateral Knee Stabilizer with "J" Shaped Buttress

MODEL: 37-250

Sports neoprene is an ideal material because it provides consistent compression and four-way stretch for proper fit and comfort. Neoprene retains the body's natural heat to provide therapeutic and soothing warmth to joints and muscles. Provides excellent side-to-side support of the knee and stabilization of the kneecap. Indicated for Chondromalacia, pain from lateral pressure syndrome, patella instabilities, lateral patellofemoral malalignment, and lateral dislocation. Color: Black - Specify right or left.

- Maintains proper alignment of the knee
- "J" shaped buttress for lateral patella support and stabilization
- Adjustable compression straps
- Stabilizes with complete range of motion
- Sports neoprene for therapeutic warmth
- Durable for sports wear
- Easy slip-on style

Measure 4" above center of the kneecap. Specify right or left.
