| 28-802702 | X-Large | 15" |

Shoulder Abduction Support

MODEL: 16-801

Abduction cushion is constructed of sculpted foam to fit body contour. Cushion is designed to provide 45 to 70 degrees of abduction based on positioning. Cushion can be placed in the anterior, posterior or central position. Foam and elastic support is universally designed to fit a range of sizes. Cuffs are adjustable with hook and loop closures. Wide shoulder strap helps prevent migration.
