- Foot Drop
- Pressure Ulcers
- Ankle Deformity
- Knee Flexion
- Hip Abduction
- Post Knee or Hip Surgery
- Hip or Leg Rotation

800-327-4110

PRODUCT FEATURES:

- **Unique Splint Shape** maintains functional alignment of the foot and ankle.
- **Lightweight Plastic Shell** has a spring-like action that yields to the contracture.
- **Complete Heel Suspension** completely suspends the heel, protecting it from pressure or friction.
- **Soft Comfortable Liner** allows air to circulate, absorbs perspiration, and keeps foot warm.
- **Padded Toe Post** is adjustable, protecting the toes from contact with bed linens.
- **Hip Rotation Control Bar** helps position the foot correctly by preventing internal or external rotation of the hip, foot and/or ankle.
- **Padded Ankle Strap** reinforces foot position.
- **Transfer Pad** (Model 58-225)

HOW TO APPLY:

Unfasten all closures (calf strap, ankle strap and foot strap). Gently place the patient's knee in a bent position and slide the splint in place. While applying pressure over the instep, firmly position the foot in the contracture splint. Maintaining pressure over the instep, fold the liner and secure hook and loop closure over the instep. Secure hook and loop closure around the calf. Secure ankle strap.

CARE INSTRUCTIONS:

For Liner: Fasten all closures. Machine wash on gentle cycle or hand wash in cold water with a mild soap. Rinse thoroughly. Wrap in a towel to remove excess water. Do not wring or twist. Air dry away from heat or tumble dry on cool. Do not bleach. Liner should be laundered one a week or more frequently if needed. **For Plastic Shell:** Spot clean with a soft cloth and mild soap. Rinse and wipe dry.

SIZING:

Measure according to US shoe size.
Fits Right or Left.

Size	Men's Shoe	Women's Shoe	Calf Size
Small	4 - 5	3 - 6	12 - 16"
Medium	6 - 9	7 - 10	14 - 18"
