

PressureLite

MOLDABLE / DIABETIC INSOLES

Model No: F45

Sizes: XSmall - XLarge
Color: Beige

The PressureLite® Moldable/Diabetic Insoles provide an outstanding fit with a deeply cupped, stabilizing heel and moderate longitudinal arch. A dual-layer design provides relief to insensitive and diabetic feet. The natural heat and pressure of the foot molds the top layer for a conforming fit and the bottom supportive layer absorbs shock and will keep its shape. Insole can be trimmed to fit any shoe. Easily fits in most diabetic shoes.

FEATURES:

- Deep cupped heel for increased heel stabilization
- Moderate longitudinal arch support
- Dual-layer design provides relief to insensitive and diabetic feet
- Easy to trim and fit in most diabetic shoes

SIZING:

Size according to US shoe size.

Size	Men's Shoe	Women's Shoe
X-Small	—	5 - 7
Small	6 - 7	8 - 9
Medium	8 - 9	10 - 11
Large	10 - 11	—
X-Large	12 - 13	—

Dual-Laminate Construction:

- Top Plastazote Layer naturally molds with the heat and pressure from body's weight
- Formed Bottom Layer gives a firm supportive base, absorbs shock and will keep its shape.
- Molded with longitudinal arch for support and relief.
- Deep cupped heel for increased heel stabilization.
- Easy to trim to fit.
