

NEOPRENE ELBOW SLEEVE with Loop Lock

Model No: 19-601

Sizes: Small - XLarge
Color: Navy or Black

INDICATIONS:

- Slight Elbow Strain
- Epicondylitis (Tennis Elbow)

USE:

This support is the choice of many sports medicine and orthopedic professionals. Sport neoprene is an ideal material because it provides consistent compression and four-way stretch for proper fit and comfort.

PRODUCT FEATURES:

- **Sports Neoprene** retains the body's natural heat to provide therapeutic and soothing warmth to joints and muscles.
- **Soft Nylon Loop Lining** is comfortable against the skin.
- **Adjustable Support Strap** has an adjustable loop lock and provides compression directly over the tendon.

WEARING INSTRUCTIONS:

Release strap and slide sleeve over elbow so it is positioned three inches above the joint with the tension strap just below the elbow. Secure the tension strap so it fits comfortably without inhibiting circulation. Adjust as needed.

CARE INSTRUCTIONS:

Close hook and loop strap. Hand wash in cold water with mild soap. Wrap in towel to remove excess water (do not twist or wring). Air dry away from heat. Do not machine wash or tumble dry. Do not bleach.

SIZING:

Measure 3" below center of elbow.

Size	Fits Arm
Small	7 - 9"
Medium	9 - 10 ½"
Large	10 ½ - 13 ½"
X-Large	13 ½ - 15"
