

# PROLITE® COMPRESSIVE KNEE SUPPORT WITH VISCOELASTIC INSERT

**Model No: 37-850**

**Sizes: Small - XLarge**

**Color: White/Navy**

## INDICATIONS:

- Chondromalacia Patella
- Osgood-Schlatter Disease
- Joint Effusion
- Patellar Instability
- LCL Sprain
- MCL Sprain
- Patellar Tendonitis
- Quad Tendonitis
- Medial/Lateral Meniscal Strains

## BENEFITS:

While maintaining full range of motion and providing uniform compression around the knee, this compressive knee support helps minimize pain and swelling. The viscoelastic insert surrounds the patella and provides increased patella stabilization and improved patellar tracking. The flexible spiral stays provide medial and lateral support to the knee.

## PRODUCT FEATURES:

- Donut shaped viscoelastic insert surrounds the patella for uniform compression and intermittent massage to the joint
- Flexible stays for added side to side support
- Made of lightweight elastic for a breathable alternative to neoprene

## HOW TO APPLY:

- Slip the support over the knee and position until the kneecap is surrounded by the viscoelastic insert. Support should fit snugly but not so tight it digs into skin

## CARE INSTRUCTIONS:

Hand wash in cold water with mild soap. Wrap in towel to remove excess water (do not twist or wring). Air dry away from heat. Do not tumble dry. Do not bleach.

## SIZING:

Measure around leg 4" above center of kneecap.

Size	Fits Knees
Small	14 - 16"
Medium	16 - 18"
Large	18 - 20"
X-Large	20 - 22"
